Michel Effe

2015

Antonio Citterio

Description

A seating system comprising of several elements, Michel Effe is an evolution of Michel that stands out for its essential style. This variety in the product range, available in two depths, makes it possible to organise different types of in-line and modular compositions, from formal to casual. From the point of view of stye, it features a rigorous design in the base-frame and in the seat with a single cushion. More essential than its predecessors yet no less comfortable, in Michel Effe everything superfluous has been removed.
The height of the feet from ground is 19 cm (7 1/2").

Technical information

Back and armrest internal frame
tubular steel and steel profiles
Back and armrest internal frame upholstery
flexible cold shaped polyurethane foam, polyester fibre, polyester fibre cover
Seat internal frame
tubular steel and steel profiles, multi-layered wood panel, shaped polyurethane
Seat cushion upholstery
shaped polyurethane of different density, sterilized down, polyester fibre cover
Back cushion (MF65C-MF50C)
down feather and polyurethane section, box style typology
Back cushion with roller (MF65CP-MF50CP)
down feather, polyurethane section and polyester fibre, box style and roller typology
Support (FA-FB)
visco-elastic polyurethane, polyester fibre cover
Support frame
die-cast aluminium and extrusions
Ferrules
thermoplastic material
Cover
fabric or leather
