

Tobi-Ishi

2012

Edward Barber & Jay Osgerby

Description

Available both round and rectangular with rounded ends, Tobi-Ishi is a sculptural table that makes reference, stylistically and in its very name, to the ornamental stones used in traditional Japanese gardens. This iconic table brings together functional features with a statuesque appearance, with truly amazing results. The overhanging top and bases look different depending on the viewpoint, while the various finishes endow the table with highly personal interpretations: from cement grout to marble or wood, and from matt lacquering in a wide range of colours to glossy lacquering also in sophisticated candy red and smoke blue hues. With its sculptural line Tobi-Ishi becomes the protagonist of the space.

Technical information

Top (T160-T240R-T313R)

MDF wood fibre panel

Legs (T160-T240R-T313R)

high density polyurethane resin

Counterweight (T160-T240R)

cast iron

Coupling plate (T313R)

steel

Adjustable ferrules (T160-T240R)

plastic material

Adjustable ferrules (T313R)

thermoplastic material

Top (T160L-T240RL)

veneered wood particles panel with solid wood parts

Top (T313RL)

veneered wood particles panel with solid wood parts and multi-layered wood

Legs (T160L-T240RL-T313RL)

solid wood

Coupling plate and counterweight (T160L-T240RL-T313RL)

steel

Adjustable ferrules (T160L-T240RL-T313RL)

steel and plastic material

Top and legs (T160M)

marble (matt polyester finish or glossy polyester finish)

Coupling plate (T160M)

stainless steel

Ferrules (T160M)

felt
